License No. 276R

Licensee:

We transmit herewith the amendment to Radioactive Material License No. 276R issued in response to your letter dated July 26, 2016, requesting approval of the Rennie Farm Decommissioning Laboratory Waste Test Pit Excavation Work Plan.

Review the enclosed document carefully. If there are any errors or questions, please notify the New Hampshire Department of Health and Human Services' Radiological Health Section ("Agency") so that we can provide appropriate corrections and answers.

We remind you that you must conduct your program involving radioactive materials in strict accordance with the New Hampshire Rules for the Control of Radiation (NHRCR) and the conditions of your license, including any and all statements and representations contained in referenced documents.

The Nuclear Regulatory Commission's (NRC) Safety Culture Policy Statement, effective June 2011, can be accessed on the NRC's safety culture web site. We encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in activities regulated by this Agency.

If we may be of any assistance to you in your radiation safety program, please do not hesitate to contact us.

Sincerely,

Twila M. Kenna, Ph.D., Manager
Radioactive Materials Program
Radiological Health Section
